SIGN AND RETURN TO YOUR SCHOOL TODAY!

ToothSavers in-school dental program will be providing NO COST visual screenings and preventive oral health services at your child's pre-school. **These visits are quick and fun, and your child will receive a free toothbrush.**

Oral health screenings are a visual screening to check the health of the teeth/mouth and detect any dental problems or emergencies. **Every child will receive a visual screening unless you opt out with your child's school.** NOTE: Screenings are different than dental exams and do not interfere with regular dental office exams.

If you would like your child to receive the **preventive services** listed below, you need to fill out and return this form to your child's school:

Fluoride varnish is a safe, great tasting gel brushed onto the teeth by a dental professional. It helps fight cavities and is recommended for kids 2-4 times per year.

Dental sealants are a safe and painless coating placed on chewing surfaces of the back teeth. According to the CDC (Centers for Disease Control and Prevention) sealants prevent cavities by up to 80%!

Head Start children under 18 months will have screenings only.
Children 18 months to 3 years may receive fluoride.
Dental sealants are offered to children 3 years and older.
Our screenings count as ECEAP/Head Start dental health encounters for enrollment purposes.

Are there any of the above services that you would **NOT** like your child to receive?

If so, please list here:_____

PLEASE COMPLETE

ECEAP/Head Start students are 100% covered by Medicaid for services and these families will not be billed.

Child's Legal FIRST Name	Child's Legal LAST Name(s)	Birth Date mm/dd/yyyy	☐ Male ☐ Female
