We've made progress, but we're not done.

We're excited to continue our partnership, and we're committed to helping you reach more families so more students can get the comprehensive care they need.

The kids are counting on all of us, but we know getting forms returned is not easy. Parents can sign up online now at www.MySchoolDentist.com regardless of the next visit date. There is no cost for families with Medicaid.

Thank you for your partnership. Your students are lucky to have you as their champion!
